

WHY JOIN THE PostBacCAS™ COMMUNITY?

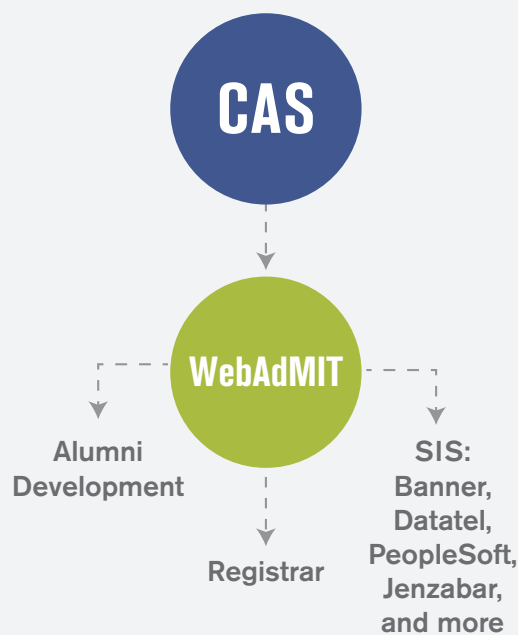

Liaison International has been working with several postbac program directors to develop a Centralized Application Service (CAS) specifically for postbac programs.

These postbac program directors comprise an advisory board that has been invaluable in the development and implementation of PostBacCAS, a centralized online portal through which prospective students will learn more about postbac programs and apply to multiple programs of interest by submitting just one set of transcripts, test scores and letters of recommendation.

Thanks to the postbac director advisory group who have shared their insight and feedback, we're excited to announce the planned launch of PostBacCAS in August 2017.

Fully customizable and branded software lets schools define their unique workflows and program-requirements, and retain total control of all admission decisions.

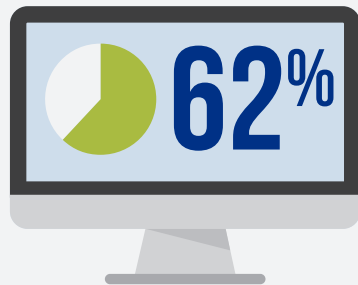

A CAS can easily integrate into existing data systems.

There is no cost to schools for participation in PostBacCAS.

62% of master's-level students surveyed would have preferred to apply through a CAS.

More than half of master's-level students surveyed reported that they applied to more than one program.

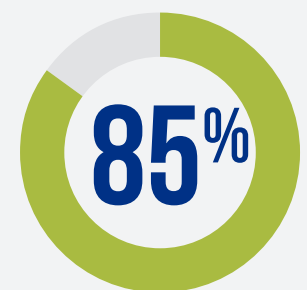

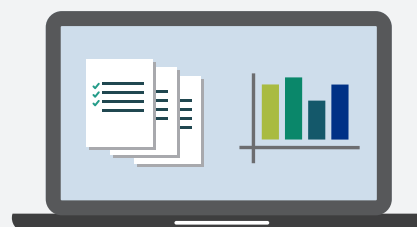

75%

Decrease in application processing time from initial application to acceptance.

#1 FEATURE

The #1 feature of importance to potential students is the convenience of having program data and applications in a central site.

85% of programs surveyed expressed a desire to increase their applicant pool!

69%

Reduction in time to final decision.

Source: University of Tennessee Health Science Center

Reduced the time from when a student submits the application through a CAS to when it has been verified and available for program review.
